OBJECTIVE

Full Stack Developer skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience building and deploying scalable, responsive web applications. Proficient in RESTful API design, JWT authentication, third-party API integration, and role-based access control. Strong foundation in data structures and algorithms (Java). Seeking an entry-level MERN Stack Developer role to contribute clean, maintainable code in a fast-paced development team.

SKILLS

- **Languages:** JavaScript (ES6+), Java, Python
- **Core Concepts:** Data Structures & Algorithms, MVC Architecture, Computer Network, OOPS, Operating System
- **Frontend Technologies:** React.js, Context API, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design
- **Backend Technologies:** Node.js, Express.js, EJS, RESTful APIs, JWT Authentication, Socket.io
- **Database:** MongoDB, Mongoose, MySQL
- **Dev Tools:** Git, GitHub, VS Code, Postman, Thunder Client, Vercel, Render

WORK EXPERIENCE

CODEQUOTIENT

February 2026 - June 2026

- Built scalable web application modules using React.js and reusable UI components, improving reusability across 10+ components.
- Practiced data structures and algorithms in Java while collaborating via Git and GitHub across feature branches.

BIG BYTE INNOVATIONS PVT. LTD

June 2025- August 2025

- Designed responsive and cross-browser compatible web pages using HTML5, CSS3, Bootstrap, and React.js
- Implemented dynamic UI components and reusable layouts to enhance user experience
- Collaborated with a 4-member team using Git and GitHub, maintaining a clean commit history and meeting all sprint deadlines.
- Utilized Git and GitHub for version control and efficient code management

PROJECT

Gym Management SaaS — MERN Stack

[CURRENTLY WORKING]

Tech Stack: Next.js | Node.js | Express | MongoDB | JWT

- Architected a multi-tenant SaaS platform with gymId-based data isolation and JWT + OTP email authentication.
- Built diet/workout template management, payments, and in-app notification systems for Admin and Member portals.
- Automated fee reminders and absence alerts via WhatsApp API reduce manual follow-up effort significantly.
- Designed role-based access control (RBAC) to separate Admin and Member portal permissions and data access.

JOBPILOT

Tech Stack: React.js | Node.js | MongoDB | Tailwind CSS

- Built a centralized dashboard to organize and monitor 50+ job applications with real-time status tracking.
- Developed automated skill-extraction and resume-to-job matching tools using text-parsing logic to improve match accuracy.

HotelVaulte

Tech Stack: JavaScript, EJS, Express.js, and MongoDB

- Built a server-side-rendered (EJS) hotel booking platform with secure authentication and full CRUD functionality, using MVC architecture and RESTful APIs.
- Designed a responsive, modern UI to deliver a smooth end-to-end booking experience.

EDUCATION

Masters of Computer Application	(2024- 2026)
Kurukshetra University,Kurukshetra	
Bachelor of Computer Science	(2021-2024)
Chaudhary Ranbir Singh University, Jind	75%
Senior Secondary (Non-Medical)	(2020-2021)
D.A.V. Centenary Public School, Jind	95%
Secondary	(2019)
Saraswati Vidya Mandir High School,Jind	98.4%

CERTIFICATES

- Certificate of Completion Sigma Course by Apna College (JAVA with DSA)
- Certificate of Completion Sigma Course by Apna College (Development)
- Certificate of Web Development Exam by InfoTact Solutions
